GETTYSBURG, PA.
Monday Morning, June 17, 1867.

OUR EDITOR.

Hon. George Sharwood, of Philadelphia, the nominee of the Democratic party for Supreme Judge, is admitted in all sides to be one of the ablest judges and purest men in the Commonwealth. In the Convention which nominated him, Judge Black rose and said:

I did not vote for Judge Sharwood; but that only proves that there are other men deemed worthy of the high honor which has fallen upon a proper person. I have known Judge Sharwood for a good many years. I think I know him well, both as a man and a lawyer; there is not one unbecoming spot upon him; there are precious few men in Pennsylvania who are his equal; and to say that it is to say about as much as can well be said of a man. He understands the law and the constitution thoroughly, and would be rather than violate a great principle. Such a tribute, from such a source, is enough to place the nominee in the vanguard of every right-thinking, patriotic voter. We shall have more to say of him hereafter. With so auspicious a start, the Democracy cannot well fail of success at the polls. To work, then, Democrats, at once! Strike for your country, your institutions, and your rights as white men!

ILLINOIS, TOO!

An election has just been held in Illinois which shows the change in public sentiment in that State. The Second Judicial District of that State, which gave 3,044 majority for the Radicals in November, 1866, now elects a Democrat for Judge by a majority of 4,000. This is a healthy indication, and should induce renewed exertion on the part of the Democracy of Pennsylvania to reduce the old Keystone State in the coming contest.

Last winter the Radicals of the Illinois Legislature changed the time of holding the municipal election in Galena from March to June, in order to take advantage of the absence of many Democrats on the River. At the election on the 5th instant, however, the Democracy elected the mayor by 250 majority, all the aldermen, and captured the third ward, which has always been in opposition. Cheating never prospers long.

The Missouri Republican thus chronicles a recent Democratic victory in that State:

The Radicals of Belleville, received a drubbing yesterday which they will remember. The Democrats elected Aldermen by a majority of 150—a gain of several hundred since last fall. The Democrats say the Democracy is a corpse! But it stinks around the Radicals in a fatal way.

Local Elections in West Virginia.—The local elections in West Virginia, which have recently taken place show large Conservative gains, and many counties have been completely revolutionized. Every county in what is known as the Panhandle has given large Conservative majorities, and the great diminution in Radical strength is said to be noticeable everywhere.

Democratic Victory in a New England City.—The Democracy of Waterbury, Connecticut, achieved a signal victory on the 10th. Last year the Radicals carried the city by 300. Now the Democrats have it by 300, and on a vote much larger than that of last year. The Democratic Mayor has within a fraction of 500, and on all the Aldermen the Democratic majority is considerably over 300, and on some over 800! Thus are the white men of the country almost everywhere asserting their self-respect.

DECEMBER'S BAIT FOR THE BLACK MAN.

In his remarks before the Equal Rights Association, Henry Ward Beecher said: "Take a black man, bait him with a white woman, and I think you will catch the black man." This, says the Chicago Times, is probably true, but somewhat disgusting. If the Radicals propose to use white women as baits to catch darkies with, it is to be hoped that they will use their own daughters and sisters first; but as in the war they got others to do the fighting, and as in negro outrages they propose if only for other States, so, in the matter of bait, they will probably attempt to use somebody else's white women.

INTELLIGENT COLORED GENTLEMEN.

John M. Bots, who is serving on the Richmond Grand Jury with five colored men, cannot make them understand, he says, that the jury has nothing what ever to do with confiscating lands, which they are constantly talking about. They reply: "Gor a mighty, Mr. Bots, the colored people want land, and how is dey going to git it without it be confiscated and gub to 'em?" This is rather a pertinent question. A set of Radical mischief-makers have filled the heads of these ignorant creatures with the idea that they ought to have the plantations of their old masters, and it seems impossible for even their friend, Mr. Bots, to convince them that the Grand Jury has no power over the subject. Radicalism is beginning to bear its legitimate fruit, but the end is not yet.

THE CAMPAIGN IN TENNESSEE.

Brownlow is conducting the campaign in Tennessee on true Radical principles. He has organized a band of thieves and cutthroats in every county of the State, and his armed ruffians are doing the political work assigned them in true Radical style. Murders and other infamous and brutal outrages are of daily occurrence. The people of the State are making loud appeals to the President, and eagerly seeking the protection of the Government. What a glorious Republic this is, to be sure! The re-election of Brownlow through the agency of his gang of desperadoes will be heralded as another triumph of fiefdom, Hall Columbia, happy land!

Maximilian has been captured by the forces of Juarez in Mexico, and is to be tried by court-martial. Several of his favorite generals have already been shot. While the attempt to establish a monarchy in that long-distorted country has failed, it is not at all certain that peace will reign long within her borders.

The National
REAPERS AND MOWERS.
Hubbard's
SELF-RAKER.
THE undersigned is offering for sale this cele-
brated Combined Self-Raking Reaper and
Mower. This machine has two driving wheels,
bi-joint and folding bar, is very simple in
construction, and is considered by those who
have used them to be equal in grass to any
light machine made for mowing only. It cuts
4 feet 8 inches in grass, and 5 feet 2 inches in
grain, is a rear-cut side-delivery, capable of
cutting a whole field of grain without binding
a sheaf, and does the most satisfactory work
in all grades of grain. It is worked with two
horses, and is considered to be the best in
existence. Farmers reading over the
different advertisements will come to the
conclusion that all are best, but we will give
them our reasons for calling ours the best:
1st. This Self-Raker has four racks (no
blank fan). The racks are made of a
small lever in front of him can make either
rake sweep the platform at his will. You will
see by this that it makes no difference how
far you have to drive, you can always have a
full load, thereby saving binding, gathering
or driving sheaves.
2nd. If your grain is one thickness or less
it will permit of making a shed each revolu-
tion of the Rake or you wish to put the driver
on the horse, you can do so by simply draw-
ing out the rack, and will keep the racks open
to drop into the lodged or tangled grain. Here
is one point to which we wish to draw your
attention. Take notice where all these racks
strike into the grain and then compare them
with blanks or racks of other Self-Rakers.
3rd. If you wish to cut with the swath on
your lever fast, and it will do so with per-
fectly, and you will be safe for wet weather.
4th. All men know that in a hand-raked
Reaper the reel must be changed for differ-
ent grades of grain to make it reel on plat-
form, and to make it reel on platform, it is
in extreme tall or short grain. This Rake
has this most desirable and indispensable
improvement, which no other Rake has.
This is done by changing two set screws in
the reel, which work on a pin. With a
combination of these four valuable points, it
has been unanimously acknowledged by all
interested and practical mechanists to be
decidedly simple and durable in its construction.
At the great National Field Trial, held at
Amherst, N. Y., last July, which is con-
sidered to have been the largest and severest
trial ever held in the United States, lasting
several weeks, under the entire management
of the New York State Agricultural Society,
this machine was awarded the Gold Medal for
the best Combined Self-Raking Reaper and
Mower. (Class No. 4). Since the great
trial, different machines are claiming Medals,
and most persons are in a fog about it. We
will explain: There were about 100 different
machines entered for the different Medals,
and they were classed as follows: The best
machine in each class was awarded a Medal,
and the second best a prize of \$25.
Class No. 1, Light Mowers; No. 2, Reapers,
and Rakes; (for grain only); No. 3, Combined
Self-Rakers; (for grain and hay); No. 4, Com-
bined Reaper and Mower, (Self-Rake) Hub-
bard's; No. 5, Combined Hand and Self-
raking Reaper and Mower, (shown out on
account of inferior work).
At the Field Trial held by the Center
County Agricultural Society, on McAllister's
farm, last July, Hubbard's Combined Self-
raking Reaper and Mower was awarded the
highest premium, and the best work done.
See Circulars for particulars. All we ask is for
you to come and see this machine for them-
selves. We warrant them to give entire
satisfaction in all respects. Sample machines
on hand. Extras always on hand. Branch

Association, October 6th, 1886.
OHIO AND DUCKEY PATENTS.
At the great trial of Reapers and Mowers at
Amherst, N. Y., in July last, by the New York
State Agricultural Society, this Machine was
awarded the preference over all others in
all sorts of grain. This Machine is the most im-
portant of any, as it embraces Mowing and Hand
and Self-raking Reapers in the same Machine.
This Machine has been awarded Medals and
First Premiums by the Pennsylvania and Iowa
State Fairs, and by hundreds of County Fair-
s in all parts of the country. This Machine
took the First Premium at the Adams County
Agricultural Fair held at Bendersville, Sep-
tember, 1886. Also,
BALDWIN & RUSSELL'S SCREW POWER.
Both first-class Machines, having sold a num-
ber of these Machines in the last three years.
They have given general satisfaction wherever
used. If you wish to cut with the swath on
these machines before purchasing elsewhere,
they will be able to make a better selection
of certificates from some of the best farmers in
the county, and will give you a full satisfac-
tion with a fair trial, or no sale. Insured for
one season.
Extras always kept on hand. We have made
arrangements to have repairing done
when needed at any time and on moderate
terms.
With the above we have for sale a number
of valuable Farming Implements.
